

4 October 1988

Dear Maja,

We found your address in a magazine for kids, where you say that you want to write letters, and because of that we are writing this letter to you.

We are two friends from the same class. We are in 5th grade of primary school and we love art.

We collect pictures for our wildlife album, called Animal Kingdom. We also collect postcards and serviettes. We can exchange if you need some!

Yesterday we tried to record our favourite song from the radio onto the cassette, but the tape of the cassette was broken. So, we glued it and fixed it with a pencil. Now we can listen to that song all day!

When we have free time we ride a bike, rollerblade, or play hopscotch and gum games. We like to climb trees, especially the cherry tree in our neighborhood. Mmmm... The cherries from that tree are delicious! Although we sometimes we need to run fast because of that, ha,ha,ha.

Also, we often just lie down on the grass, look at different shapes of clouds and relax.

Last summer we built a fortress with our friends. That was our secret place. No one knows that, just we and our friends. We always play there.

Our favourite movie is Back to the Future. We often imagine what could happen in the future. Maybe someone will invent some network that connects the world, and we will be able to see each other through a box... Can you imagine what the world will be like in, for example, the year 2026? We can't wait to see that! But... We hope kids will still play in the park or in a similar place. Imagine writing letters to each other again in 2026, but maybe in different way...

We hope you will write letter to us soon!

Bye for now,

Ana and Tanja
